Adaptive - I can adjust to my environment easily.

Passionate - I like programming.

Experimental - I love to experiment with things, and the easiest thing I could experiment on is programming.

Impression to the teacher

Very quick responses when it comes to student concerns

This year, I want to learn more about

1 Learn more about Java and OOP, as OOP is a fundamental programming concept.

2 Learn more about interfaces and abstraction, since I've tried OOP methods but those two are the ones I still can't comprehend properly.

3 More undiscovered OOP concepts, and in-depth explanation of the ones I know.
